Through the walls of towering waters  
Moses let all the people free  
Today we deal with COVID 19  
A miracle many just cannot see.

Yet I know it is a true blessing  
Some say it's now in disguise  
But when we look back on our own history  
We'll see it's when we really got wise.

Wisdom is earned and not given  
A formula of effort and time  
It's a gift so often discarded  
As not being worth even a dime.

Pair wisdom and freedom and miracles  
Precious values I'd take any day  
The blessing of living history in the making  
God-given purpose we earn as we pay.
